

INDIANA UNIVERSITY

FULFILLING *the* PROMISE

Indiana University is a major multicampus public research institution, grounded in the liberal arts and sciences, and a world leader in professional, medical and technological education. Indiana University's mission is to provide broad access to undergraduate and graduate education for students throughout Indiana, the United States, and the world, as well as outstanding academic and cultural programs and student services. Indiana University seeks to create dynamic partnerships with the state and local communities in economic, social, and cultural development and to offer leadership in creative solutions for 21st-century problems. Indiana University strives to achieve full diversity, and to maintain friendly, collegial, and humane environments, with a strong commitment to academic freedom.

SCHOOL OF MEDICINE

FAMILY MEDICINE

The Department of Family Medicine promotes optimal health for individuals, families and the global community. We provide continuing and comprehensive patient care and deliver excellence in family medicine through innovative medical education and practice-based health services research.

INDIANA UNIVERSITY

SCHOOL OF MEDICINE

It is the mission of Indiana University School of Medicine to advance health in the state of Indiana and beyond by promoting innovation and excellence in education, research and patient care.

Arnett Family Medicine Residency

Through innovative medical education and training the Arnett Family Medicine Residency aims to prepare excellent primary care physicians who will provide comprehensive, patient-centered, team-based care for any community and in any setting they may practice.

Area Health Education Centers Network (AHEC)

The Indiana AHEC Network enhances access to quality health care, primary and preventive care, by improving the supply and distribution of health care professionals through community/academic educational partnerships.

Bowen Center for Health Workforce Research and Policy

The mission of the Bowen Center for Health Workforce Research and Policy is to advance policies which improve human health and well-being through commitment to service and research contributions.

Family Medicine Research Division

The Family Medicine Research Division seeks to create and sustain an inclusive environment in order to advance research that integrates the tri-partite mission, advances the discipline of Family Medicine, and enhances translation of research for community benefits.

IUPUI Campus Health

The mission of IUPUI Campus Health is to provide not only clinical services, but consultative and research services to the University and Community. Our goal is to provide low-cost affordable healthcare to students in an environment that promotes learning, inclusion, and diversity.

Jasper Family Medicine Residency

The mission of the Jasper Family Medicine Residency is to mold exemplary family medicine physicians who will serve the community through compassion, leadership, education, knowledge and its application.

Medical Student Education

Medical Student Education seeks to provide exemplary educational programs that engage medical students with primary care physicians and other healthcare providers. Working in partnership with individuals and community organizations to address unmet healthcare needs across our state, we focus on building and fostering innovative ideas that emphasize the importance of patient-centered care and collaboration to improve care.

Indianapolis Family Medicine Residency

The Indianapolis Family Medicine Residency desires to train competent, well-rounded primary care providers to serve Indiana who are experienced and prepared to provide multi-disciplinary team-based care for their patients as leaders within their clinical practice and communities whether outpatient, inpatient or both the outpatient and inpatient practice in any setting.
